Youth Protection Training

After viewing and discussing the current BSA Youth Protection Training video, please return this Youth Protection Training roster to either the Batavia or Lockport Scout Service Center within the week following the training session.

For audit purposes, it is important that each person sign in individually in his or her own handwriting.

Youth safety is the No. 1 concern of the BSA.

To increase awareness of this societal problem and to create even greater barriers to abuse than already exist today in Scouting, the Boy Scouts of America has enhanced several important Youth Protection policies.

Effective since June 1, 2010:

• Youth Protection training is required for all registered volunteers.

The above listed participants have completed the training indicated _

- New leaders are required to take Youth Protection training before they submit an application for registration. The certificate of completion for this training must be submitted at the time application is made and before volunteer service with youth begins.
